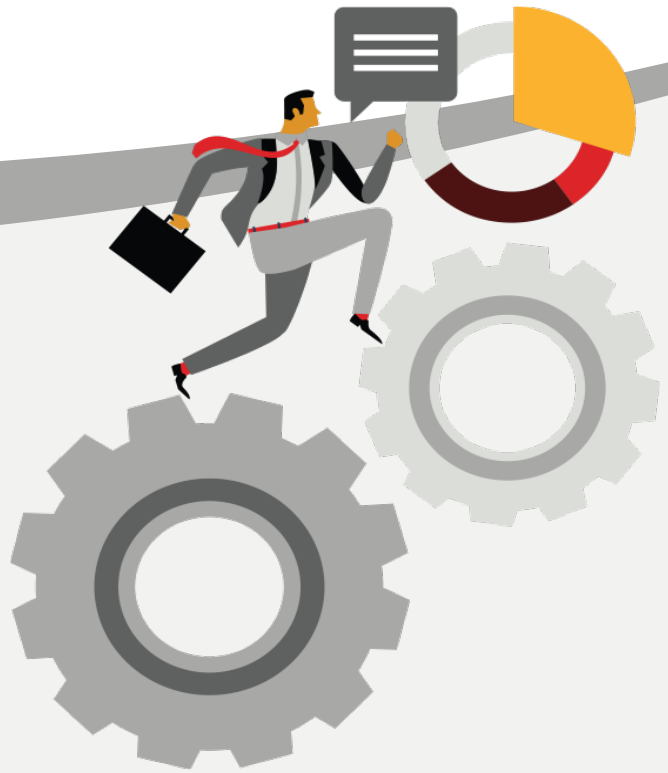
Infinicept



Managed Services

Put your payments business on the fast track with outsourced expertise in merchant underwriting, dispute resolution, and risk management.

Draw on our team of top industry experts to streamline critical processes, making your embedded payments business more efficient and effective.

- Focus on your core offerings
- Speed the time to market for your payment facilitator business
- Reduce start-up challenges
- Support your rapid growth

Get payments going your way with skilled support

- **Merchant Underwriting**
  Provide the optimal customer experience for your submerchants while ensuring compliance with your acquirer's underwriting policies.

  We perform all principal background checks and OFAC or MATCH list verification, and we address any discrepancies in the merchant application process.

- **Dispute Resolution**
  Efficiently and successfully navigate the dispute resolution process, putting our experience with the acquiring ecosystem and integration partnerships to work for you.

  We work directly with your submerchants to collect the necessary documentation to submit to the acquirer.

- **Risk Management**
  Focus on scaling your business while we monitor your submerchant portfolio for risky or suspicious transactions.

  We watch for processing volume anomalies, out-of-range transaction values, and excessive refunds and chargebacks. You watch your business grow.

Extend the team and the resources you already have
OR use Infinicept Managed Services as your own back-office payments team.
